"Design must be functional and functionality must be translated into visual aesthetics, without any reliance on gimmicks that have to be explained."

— Ferdinand A. Porsche

"Creativity is just connecting things. When you ask creative people how they did something, they feel a little guilty because they didn't really do it, they just saw something. It seemed obvious to them after a while."

— Steve Jobs

"I think design would be better if designers were much more skeptical about its applications. If you believe in the potency of your craft, where you choose to dole it out is not something to take lightly."

— Frank Chimero

"Design must be functional and functionality must be translated into visual aesthetics, without any reliance on gimmicks that have to be explained."
